# Framework

**6 Trait Power Write brings together the writing process in a way that no other program does.**

The acronym "Power Write" holds the writing process together for students and guides them through the steps using strategies specific to the type of writing on which they are working. The acronym allows consistency in terminology and instruction for all grade levels and content areas using the program.

Students are provided customized tools and strategies based on the 6 Trait model for each type of writing they are assigned.

- P**rewrite
- O**rganize
- W**rite
- E**valuate 6 traits
- R**evise
- W**ait

"The effective punch of this subscription-based system is that it helps teachers and students learn process writing. The 6 Traits are used as part of the evaluation procedure that is integrated into the writing process. Multiple modes of writing are supported. While your students write with this system, they are also building their own portfolios. If you are looking for the answer to how you'll integrate writing process and 6 Traits assessment into your classroom practice...you've found an answer! I highly recommend 6 Trait Power Write!"

*Dennis O'Connor, Online Instructor: Teaching and Assessing Writing with the 6 Traits • University of Wisconsin, Stout*

The more I use Power Write, the more aware I become of its possibilities! My students feel ownership when they find their name welcoming them to their work, and they are so relieved to see they don't have to start with a blank sheet of paper. I especially like having the idea bank so ideas can be added as they come and then choosing the one that works best. Thank you for a WONDERFUL program!

*Judy Woods, fifth grade teacher*

"Power Write is the most effective tool I've seen in helping children learn the writing process. It has become a critical component of our communications curriculum."

*Clay Abla, Assistant Superintendent of Schools*

"Finally, a way to have your students work through the writing process at their own speed while allowing me to work with those that need more coaching. A great instructional and management program!"

*Patty Hennes, middle school teacher*
