

## Technology Commitment

Perfection Learning strives to provide quality, full-featured digital materials that are easy for teachers, students, and administrators to use. This focus on quality and ease of use allows us to provide you with a platform with such features and benefits as:

### 1. **IMS Global Membership and LTI Compliance**

Perfection Learning is a member of IMS Global, and our Perfection Learning Engage digital learning platform is IMS Global LTI version 2.0 compliant. This certification allows us to easily integrate with your LTI compliant LMS. Please feel free to check out our LTI compliance certification: <https://www.imsglobal.org/compliance/perfection-learning-engage>.

### 2. **Support for OneRoster Files and the OneRoster REST API**

Our platform is IMS Global OneRoster v1.1 compliant and uses OneRoster REST API via ClassLink. This open source standard removes the need to reformat your user data every time you contract with a new publisher. Please feel free to review our OneRoster v1.1 compliance certification: <https://www.imsglobal.org/compliance/perfection-learning-engage>.

### 3. **Rostering and Single Sign On**

The Perfection Learning Engage digital learning platform can quickly integrate with the major rostering and single sign on (SSO) providers in the education market. Integrations currently supported by the platform include:

- ClassLink for SSO in conjunction with OneRoster for rostering
- Clever for both SSO and rostering
- Direct integration with your LTI-compliant LMS via an LTI connector.

### 4. **Thin Common Cartridge Compatibility**

Given sufficient lead time, Perfection Learning can provide your district with Thin Common Cartridges (TCCs) for eBooks housed on our Perfection Learning Engage digital learning platform. Our cartridges are certified by IMS Global and conform to TCC version 1.3. As an example, we've successfully supplied TCCs within three months of request for a district with over 40,000 students.

### 5. **Integration with the Canvas Learning Management System**

The Perfection Learning Engage digital learning platform is LTI compliant and can be integrated with the Canvas LMS as an external LTI application.

## **6. Integration with Google Classroom**

The Perfection Learning Engage digital learning platform will be integrated with Google classroom by the beginning of the 2019/2020 school year.

## **7. Support for Multiple Operating Systems and Browsers**

The Perfection Learning Engage digital learning platform is device agnostic and runs on most<sup>1</sup> Windows, Mac, Chrome, iOS, and Android devices. Completely web-based, the platform is accessed directly via a web browser. Perfection Learning recommends using the Google Chrome browser, but the platform also supports the latest versions of Firefox, Microsoft Edge, and Safari. Please note, the Perfection Learning Engage digital learning platform does not support Internet Explorer.

## **8. Mobile and Offline Access**

Many of the resources housed on the Perfection Learning Engage digital learning platform can be used while you're on the go and even when you're offline. Thanks to the Perfection Learning Engage iOS and Android apps, available for free on the Apple App Store and Google Play respectively, you can take your books wherever you go and access them whether you're connected to the internet or not.

## **9. Accessibility**

Making the Perfection Learning Engage digital learning platform accessible to all is a priority for us at Perfection Learning. We're working to make our eBooks WCAG 2.0 AA compliant, and we aim to meet the requirements for compliance by winter 2019.

## **10. Digital Access if Adoption Period Extended**

In the event the adoption period is extended beyond 8 years, those users who already have access to the digital components of the adopted products will continue to have access at no additional charge. This free access will continue until such time that a new adoption Proclamation is issued for the subject area.

If you have any further technical questions about the Perfection Learning Engage digital learning platform, please feel free to contact Allison Hewett at [ahewett@perfectionlearning.com](mailto:ahewett@perfectionlearning.com). We're excited to work with you to find a solution that fits the unique needs of your district.
